

**SilkSpace definition** combines the minimalist, modern good looks of our SilkSpace performance luminaire, in a value version that's perfect for your tight budget projects.

**SilkSpace definition now includes AccuRender technology for the highest color quality at the highest efficacy.**

## Imperial & metric sizes

### Mounting details

#### Flat T-Grid

Integrates with most common T-Grid types. Works with 9/16" & 15/16" flat T-Grid ceilings

#### Slot T-Grid

Can be used with slot T-Grid ceilings. For 9/16" slot T-Grid ceilings, fixture will sit 5/16" above bottom of T-Bar.

#### Ceiling Types

Integrated mounting tabs can be field-adjusted to various T-Grid ceiling heights for fastening directly to the T-Bar and/or tied off to the building structure.

#### Air Return Vents

The air return version features slotted vents along the sides of the fixture. As a result, the installation method of the air return version may be different to the standard version, please consult the installation instruction sheet.

#### Filler Panel (20"x4' only)

Attach filler panels to ends of housing using two supplied screws shown below.

#### Drywall Trim Kit

The drywall trim kit mounting frame assembly is designed to permit use of grid (NEMA G) fixtures in drywall or ceilings requiring flanges.

Extruded aluminum construction with mitered corners. Includes screws for complete assembly. Available in 2'x2', 2'x4' & 1'x4' sizes.

More information available at:

[http://docs.ledalite.com/download/pdf/ID-Recessed\\_Drywall\\_Kits.pdf](http://docs.ledalite.com/download/pdf/ID-Recessed_Drywall_Kits.pdf)

#### Wood Frame Hanger Wire

Wood frame and screws supplied by others.

Hanger wires supplied by others.

# SilkSpace definition

## Imperial & metric sizes

### Specifications

#### Optical System

Optical system consists of highly reflective powder coated interior reflectors and three flat acrylic lenses.

#### Finish

Housing and Frame: Post-painted, high quality powder coat. Available in white.

#### Housing

Die-formed, post-painted, 22 & 24 gauge cold-rolled steel. Wire entrance is positioned on the side and/or top of housing to allow easy wiring access for installation. Access to boards and drivers from below via side lens cavity. T-bar clips built into the luminaire ends for quick and easy installation. Optional perforated or solid filler panels for 20"x48" fixtures to accommodate 60" ceiling grid.

#### Weight

Maximum 40lbs (2'x4' with Battery Pack).

#### Electrical

LED boards are easily field replaceable, if required. Fixtures are factory pre-wired and tested for all circuits and backup battery packs; all leads pulled to a side access with cover plate.

#### Standard Drivers

Advance Xitanium 0-10V, 1% Dimming

Advance Sensor Ready, 5% Dimming

Lutron EcoSystem LDE1, 1% Dimming with Soft-On and Fade-to-Black

Class 2 rated output.

Consult Ledalite for other available drivers.

#### Standard Battery Pack

Bodine, 90 min, 10W, Class 2 rated output, Emergency lumen output = 10W x luminaire efficacy x 1.1. Typical output: 1300lm.

#### Lumen Maintenance

LEDs have been tested by the manufacturer in accordance with IESNA LM-80-08. At an ambient temperature of 25°C, the LED lumen maintenance expectation according to IES TM-21-11 is: L80 (10k) >60,000 hrs (Reported methodology).

#### Source Color

LEDs rated for color rendering of:

CRI >90 & R9>50

Fixture to fixture color accuracy within 2 SDCM.

#### Mounting

Compatible with 15/16" lay-in acoustical ceilings using exposed grid suspension (NEMA type G). For 9/16" slot T-grid ceilings, fixture will sit 5/16" above bottom of Tee. Integrated tabs are provided for different T-grid heights. Optional drywall kit trim mount can be fastened to a wood frame or with hangar wire.

#### Wiring

Optional armored cable flex whips are supplied in 6' lengths.

#### Approvals

Certified to UL & CSA Standards. City of Chicago Approved CCEA (housing option C). Certain versions without battery packs are DesignLights Consortium® qualified. Please see the DLC QPL list for exact catalog numbers.

[www.designlights.org/QPL](http://www.designlights.org/QPL)

#### Warranty

Five-year luminaire limited warranty including LED boards and driver.

[www.signify.com/warranties](http://www.signify.com/warranties)

#### Environment

Type IC, rated for dry & damp locations in ambient operating temperatures of 25°C. Many luminaire components, such as reflectors, refractors, lenses, and LEDs are made from various types of plastics which can be adversely affected by airborne contaminants. If sulfur based chemicals, petroleum based products, cleaning solutions, or other contaminants are expected in the intended area of use, consult factory for compatibility. Damage caused by sulfur, chlorine, petroleum based solution or other contaminants are not covered under warranty.

#### QuickShip

10-day QuickShip available for most configurations upon request. More information available at:

[www.signify.com/en-us/brands/ledalite/about-us/quickship](http://www.signify.com/en-us/brands/ledalite/about-us/quickship)

### Wireless Controls Options

#### Interact Pro scalable sensor for Foundation, Advanced & Enterprise tiers (CS an evolution of SpaceWise):

- CS is a connected sensor with integral occupancy and daylight sensing and supports wireless mesh connectivity.
- The sensor works in the Foundation mode (similar to SpaceWise) when configured without a gateway or in an Interact Pro Advanced or Enterprise mode if a compatible gateway is used.
- Interact Pro includes an App, a portal and a broad portfolio of wireless luminaires, lamps and retrofit kits all working on the same system.
- Startup is implemented via Interact Pro App (Android or iPhone) & Bluetooth connectivity. The App provides flexibility to choose between a gateway or non gateway mode for setup.
- Setup with the gateway requires wired internet access to the gateway. It is possible to add a gateway at a later point.
- Prepare project configuration steps remotely and use IRT9015 remote onsite to identify and group devices together.
- Compatible with SWS200 wireless scene switch, wireless Occ sensor (OCC SENSOR IA CM IP42 WH 10/1) and wireless Day/Occ sensor (OCC MULTI SENSOR IA CM WH 10/1).
- For more information on Interact Pro visit:  
[www.interact-lighting.com/interactproscalablesystem](http://www.interact-lighting.com/interactproscalablesystem)

#### Emergency Options (R):

- Power Sensing (Factory default) – Recommended
- UL924 option requires unswitched power sense line, absence of voltage on the normal circuit triggers luminaire to 100% output.
- Power Interruption Detection (Field option)
- Detects AC power interruption >30ms triggers 90 minute emergency mode with luminaire at 100% output.

#### Interact Pro scalable sensor bundles for Enterprise tier (SB):

- SB option, in addition to occupancy and daylight sensing, supports advanced IoT capabilities such as people estimation analysis, desk level temperature & humidity sensing, noise classification, and BLE beacon.
- Compatible with SWS200 wireless scene switch, wireless Occ sensor (OCC SENSOR IA CM IP42 WH 10/1) and wireless Day/Occ sensor (OCC MULTI SENSOR IA CM WH 10/1).
- Use Interact software and insights to increase building efficiency, achieve building wide integration and optimize space through occupancy analytics.
- Requires compatible Gateway and internet connectivity for commissioning. For more information, visit:  
[www.interact-lighting.com/office](http://www.interact-lighting.com/office)

### Wired Controls Options

#### Interact Office Wired PoE (IO & SB):

- PoE based IoT connected lighting solution for large enterprises that span across multiple floors, buildings and require multiple gateways.
- Use Interact software and insights to increase building efficiency, achieve building wide integration and optimize space through occupancy analytics.
- Integral sensor option for occupancy sensing (PIR) and/or daylight harvesting available for additional energy savings.
- SB option, in addition to occupancy and daylight sensing, supports advanced IoT capabilities such as people estimation analysis, desk level temperature & humidity sensing, noise classification, and BLE beacon.
- Optional integral emergency controller and battery pack provides backup lighting in the case of a power outage. Test switch and indicator light mounted on the chassis.
- Emergency battery has a 3 month pre-installed shelf life, and must be stored and installed in environments of -20°C to 30°C (-4F to 86F) ambient, and 45-85% relative humidity.
- For more information on Interact Office Wired visit:  
[www.interact-lighting.com/office](http://www.interact-lighting.com/office)

Note: Signify Interact Office Luminaires are not sold individually and are only compatible with Signify's Interact Office control system & software. The system requires a compatible back-end IT infrastructure for normal operations, please consult your Signify representative for additional information.

#### Tunable White:

- Tunable White is available in Interact Office Wired PoE luminaires. Other control options for Tunable White with DALI (DT6 or DT8), 0-10V, Lutron T Series or DMX control are available via an Engineered-to-Order (ETO) request.
- Signify tunable white solutions are designed to help maximize the influence of lighting on your daily life.
- Dynamic behaviors via scheduled lighting recipes mimicking daylight patterns or supporting biorhythms.
- Scene setting via lighting pre-sets based on various combinations of lighting color temperature and intensity.

1. Color Rendering Index (CRI Ra) and Strong Red (R9) are calculated in accordance with CIE 013.3-1995. Color Gamut index (Ga) and red chroma Index (C9) are CIE based properties using the Global Lighting Association's calculation tool.

2. Fidelity Index (Rf), Red Fidelity Index (Rf,h1), Gamut Index (Rg), and Red Local Chroma Shift (Rcs,h1) are calculated in accordance with IES TM-30-18.-18.

3. Melanopic Daylight Efficacy Ratio (MDER) is the measure for "spectral melanopic efficiency" as defined in CIE S 026-2018.

# SilkSpace definition

## Imperial & metric sizes

### Footnotes from page 1 ordering guide

1. Nominal values within a range. Not all lumen packages are available with all configurations. Consult photometry data for CRI, color temp, lumens & distribution of chosen configuration.
2. Not all wiring types are available with all configurations. Consult Ledalite for a complete list of available options.
3. Flex whips are installed, drywall trim kits ship separately.
4. Filler Panels available for 20"x4' size to accommodate a 20"x60" grid system.
5. Air Return version is not available in 1'x, 300mmx or 20"x sizes. Note for 20"x4' size, Air Return Filler Panels are available.
6. 347V not available with Battery Pack, DALI, Lutron EcoSystem or Sensor Ready drivers or Interact Pro options.
7. 1'x1' & 300x300mm sizes not available with Battery Pack, DALI, Lutron EcoSystem or Sensor Ready drivers or Interact Pro options.
8. Interact options require separate controls hardware by Signify.
9. This option is qualified as Engineered-to-Order (ETO) ready. Other options not shown here may be possible via an ETO request. Lead times and minimum order quantities may vary, please consult factory.
10. Must order IRT9015 Interact commissioning remote with each system order.
11. UL924 listed sensor bypass relay is factory installed between driver & sensor. Must be ordered in same module as integral sensing option. Must be installed in conjunction with a UL1008 device.

**Note:** Due to continuing product improvements, Ledalite reserves the right to change the specifications without notice.
