Features

Beam Angle

Multi-faceted reflector available in spot (15°), medium (38°) or flood (60°) beam angles.

LED Characteristics

Available with high efficiency BRIDGELUX® LED chip that maintains high lumens power watt with a typical 90 CRI.

LED Optics

Integrated clear protective lens. Optional honeycomb, soft lens, and light bending films are also available.

Dimming

Multiple dimming options are available. 100~10% dimming with TRIAC/ELV, 100~1% dimming with 0-10V, and dim to off with compatible devices. See

LED Driver Options for details. Consult factory for compatible dimmers.

Thermal Performance

Extruded aluminum heat sink ensures optimal heat dissipation and LED life.

LED Driver

The LED driver is remote mounted to allow for a lower operating temperature of the LED, longer life, and serviceable separate from the fixture. Includes an 18" (457mm) plenum rated FT6 wire with DC 2.1 connector from driver to fixture. See LED Driver options for more specific details.

System Protection

Integral thermal protection provided on Non-IC models to indicate improper installation. Mounted to the junction

box and will disconnect if insulation is detected. Insulation must maintain 3" (76mm) clearance from top or sides.

Hanger Bars – New Construction

Rigid hanger bars extend up to 25" (635mm). Score lines on the hanger bars allow for tool-less shortening down to 12" (305mm). Built-in line-up foot allows for accurate housing height during installation. Integrated T-bar clips easily snap onto T-bars.

Hanger Bars – Architectural C-Channel

Architectural frame bracket accepts C-channel and EMT conduit. Vertically adjustable.

Shipping

Fixtures can be shipped complete or with rough-in components first, and the remainder once requested.

Environment

Suitable for use in damp locations.

Warranty

5-Year warranty.

QuickShip Made-To-Order

Made-To-Order products ship within seven business days of an order being released.
