

TPR MIRAGE FLEX™ RGB PANEL

IP20/54

Description:

The **TPR Mirage Flex™ RGB** panel is extremely flexible, low profile and easy to install. It's field cuttable which makes it ideal for curved surfaces and applications where field modification is necessary. MirageFlex™ will provide even illumination with less than one inch of space between the light panel

and the translucent material ie: stone, glass, polymer. Each sheet is provided with multiple quick connect points. This enables quick connection and feed through for multiple panels. Our IP54 model has you covered for wet location applications.

Specifications:

Voltage:	24V DC (CV)	Control:	DMX
Power Consumption:	25 watts per panel (@ full RGB)	Colors in Nanometers:	RED: 620-630nm GREEN: 520-525nm BLUE: 460-470nm
Dimensions:	480mm x 240mm (18.90" x 9.45")	Lumens (by color):	RED: 230 lumens GREEN: 600 lumens BLUE: 155 lumens
Segmentation:	Can be cut in strips every 12mm x 240mm (on the cutting lines) for custom sizing
