

TPR MIRAGE™ LIGHT PANEL RGBW

IP65

TPR Mirage Light Panel RGBW

Description:

The **TPR Mirage™ Light Panel RGBW** is a low profile, solid state lighting fixture for Architectural and Entertainment use. It is IP65 rated for wet locations, uses a state of the art Quad-colorLED, and is available in two sizes. It is the perfect fixture for back lighting acrylics or glass, and at only 24 Watts it is extremely energy efficient. When used in conjunction with the Westpower300, multiple units can be controlled from one control box.
