

SyncLine's slim design rivals that of high-end LED luminaires with performance that's in sync with your budget. SyncLine offers premium quality of light with AccuRender high efficacy CRI 90+. Options include Interact, AccuRender Tunable White and new BioUp high melanopic tunable technology to enhance your daily life.

SyncLine includes AccuRender technology for the highest color quality at the highest efficacy.

SyncLine suspended

Options and dimensions

Standalone

Keep it simple with standalone modules, available in 3 standard lengths (consult Ledalite for custom lengths).

Continuous run

Create continuous runs in 2ft increments with 4, 6 & 8ft modules.

Optical configurations

SyncLine is available with one or two light engines for combined or independent Direct/Indirect control.

Finish options

White (W)

Titanium Silver (T)

Black (B)

Custom (C)

SyncLine suspended

Specifications

Optical System

One Light Engine: Lateral-facing LED arrays deliver light into both the upper and lower hemispheres, giving a highly efficient wide, homogeneous upper batwing distribution and a lower lambertian distribution.

Five distributions are available from fully Direct to fully Indirect with three Direct/Indirect ratios in between.

Two Light Engines: Lateral-facing and upward facing LED arrays are designed into separate chambers and allow a multitude of direct/indirect lumen package combinations for the ultimate in distribution control.

An optional dust cover is available in both one and two light engine models.

Housing

Precision die-formed, 20 gauge cold-rolled steel housing.

Endcaps

Flat, die-formed, 20 gauge cold-rolled steel endcaps.

Finish

Housing and endcaps are coated with a high quality electrostatically applied, thermally cured polyester powder coat finish. Available in standard Matte White, Black or Titanium Silver. SyncLine can also be specified in any custom color upon request for a one-time setup charge. Optional sensors default color is white. Fixtures with black finish have black sensors (consult factory for other combinations).

Mounting

Suspended: Rapid installation sling mount at joints and ends. High strength aircraft cable and tamper-resistant gripper provide unlimited vertical adjustment and are independently tested to stringent safety standards. An optional variable mount housing is available giving 6" of linear mounting variability in 1" increments at each end of the luminaire, to clear ceiling obstructions during installation.

Joints

Self-aligning joining system with hands-free pre-joining wire access.

Weight

Maximum 2.6 lbs/ft.

Electrical

Fixtures are factory pre-wired to section ends with quick-wire connectors and tested for all circuits and backup battery packs. LED boards, drivers, sensors and battery packs are easily field replaceable with access from below the ceiling.

Power drops can be specified in white, black or clear cord options.

Standard Drivers

Advance 0-10V, 10% Dimming.
Advance Xitanium 0-10V, 1% Dimming.
Advance Xitanium DALI-2, 5% Dimming.
Advance Xitanium Sensor Ready, 1% Dimming.
Lutron EcoSystem LDE1, 1% Dimming with Soft-On and Fade-to-Black.

2ch Tunable Drivers

Advance FlexTune Sensor Ready, 1% Dimming.
0-10V, 1% Dimming.
DALI-2 DT6 or DT8, 1% Dimming.

Class 2 rated output. Consult Ledalite for other available drivers.

Standard Battery Packs

Bodine Battery Pack, 90 min, 10W, Class 2 rated output.
Lumen output = 10W x luminaire efficacy x 1.1 Typical output ~1300lm.

Lumen Maintenance

LEDs have been tested by the manufacturer in accordance with IESNA LM-80-15. At an ambient temperature of 25°C, the LED lumen maintenance expectation according to IES TM-21-11 is:

$L_{80}(10k) > 60,000$ hours (Reported methodology).

Source Color

LEDs rated for color rendering of:
 $CRI R_a \geq 90, R_g \geq 50, G_a \geq 97, C_g \geq 90$
IES TM-30-18 : $R_f \geq 90, R_{f,hl} \geq 89, R_g \geq 99, R_{cs,hl} \geq -5\%$

SPD data available upon request

Fixture to fixture color accuracy within:
3 SDCM for Static White & Tunable White luminaires

Approvals

Certified to UL, IES & CSA Standards.

Certain product configurations are DesignLights Consortium qualified. Please see the DLC QPL list for exact catalog numbers under DLC Family Code RRRXMQ.

www.designlights.org/QPL

Select SyncLine configurations contribute toward satisfying features L02, L03, L04, L07, L08, and L09 under the WELL v2 Building Standard®.

Environment

Rated for dry or damp locations in operating ambient temperatures of 0-25°C (32-77°F).

Many luminaire components, such as reflectors, refractors, lenses, and LEDs are made from various types of plastics which can be adversely affected by airborne contaminants. If sulfur-based chemicals, petroleum-based products, cleaning solutions, or other contaminants are expected in the intended area of use, consult factory for compatibility. Damage caused by sulfur, chlorine, petroleum-based solution or other contaminants are not covered under warranty. Not suitable for natatorium environments.

Warranty

Five-year luminaire limited warranty including LED boards and driver:
www.signify.com/warranties

QuickShip

10-day QuickShip available for most configurations upon request. More information available at:
www.signify.com/en-us/brands/ledalite/quickship

Wireless Controls Options

Interact sensor for Foundation, Advanced & Enterprise tiers (CS):

- CS is a connected sensor with integral occupancy and daylight sensing and supports wireless mesh connectivity.
- The sensor works in the Foundation mode when configured without a gateway or in an Interact Advanced or Enterprise mode if a compatible gateway is used.
- Interact includes an App, a portal and a broad portfolio of wireless luminaires, lamps and retrofit kits all working on the same system.
- Startup is implemented via Interact App (Android or iPhone) & Bluetooth connectivity. The App provides flexibility to choose between a gateway or non gateway mode for setup.
- Setup with the gateway requires wired internet access to the gateway. It is possible to add a gateway at a later point.
- Prepare project configuration steps remotely and use IRT9015 remote onsite to identify and group devices together.
- Compatible with UID8451/10 wireless dimmer switch, SWS200 wireless scene switch, wireless Occ sensor (OCC SENSOR IA CM IP42 WH 10/1) and wireless Day/Occ sensor (OCC MULTI SENSOR IA CM WH 10/1).
- For more information on Interact visit:
www.interact-lighting.com/interactproscalablesystem

Emergency Options (R):

- Power Sensing (Factory default) – Recommended
- UL924 option requires unswitched power sense line, absence of voltage on the normal circuit triggers luminaire to 100% output.
- Power Interruption Detection (Field option)
- Detects AC power interruption >30ms triggers 90 minute emergency mode with luminaire at 100% output.

Interact sensor bundles for Enterprise tier (SB):

- SB option, in addition to occupancy and daylight sensing, supports advanced IoT capabilities such as people estimation analysis, desk level temperature & humidity sensing, noise classification, and BLE beacon.
- Compatible with UID8451/10 wireless dimmer switch, SWS200 wireless scene switch, wireless Occ sensor (OCC SENSOR IA CM IP42 WH 10/1) and wireless Day/Occ sensor (OCC MULTI SENSOR IA CM WH 10/1).
- Use Interact software and insights to increase building efficiency, achieve building wide integration and optimize space through occupancy analytics.
- Requires compatible Gateway and internet connectivity for commissioning. For more information, visit:
www.interact-lighting.com/office

Wired Controls Options

Tunable White & BioUp:

- Tunable White & BioUp options are available with Interact Pro wireless or with 2ch 0-10V or DALI-2 (DT6 or DT8) wired drivers. Please enquire about options such as Lutron T Series or DMX control (extended lead times may apply).
- Signify tunable white solutions are designed to help maximize the influence of lighting on your daily life.
- Dynamic behaviors via scheduled lighting recipes mimicking daylight patterns or supporting biorhythms.
- Scene setting via lighting pre-sets based on various combinations of lighting color temperature and intensity.

1. Color Rendering Index (CRI Ra) and Strong Red (R9) are calculated in accordance with CIE 013.3-1995. Color Gamut index (Ga) and red chroma Index (C9) are CIE based properties using the Global Lighting Association's calculation tool.

2. Fidelity Index (Rf), Red Fidelity Index (Rf,h1), Gamut Index (Rg), and Red Local Chroma Shift (Rcs,h1) are calculated in accordance with IES TM-30-18.

3. Melanopic Daylight Efficacy Ratio (MDER) is the measure for "spectral melanopic efficiency" as defined in CIE S 026-2018.

1. 4ft Luminaire photometry has been conducted in accordance with IES LM-79-08. IES files can be downloaded by clicking the links in the table above, or online at ledalite.com. Luminaires with finishes other than standard white may result in a drop in flux and efficacy.
2. Unified Glare Ratio (UGR) is calculated in accordance with CIE 117-1995. Reference conditions of 4Hx8Hx1H and reflectances of 70/50/20% have been applied using the procedure described in CIE 190-2010.
3. Input power stated at 3500K. BioUp & Tunable White, stated with Advance FlexTune SR driver & Interact Pro scalable wireless sensor, data may vary with other drivers.

One Light Engine - NA (100% Up)

One Light Engine - NB (100% Up)

Candela plots shown are for 4000lm/4ft, CRI 90, 3500K configurations.

- 4ft Luminaire photometry has been conducted in accordance with IES LM-79-08. IES files can be downloaded by clicking the links in the table above, or online at ledalite.com. Luminaires with finishes other than standard white may result in a drop in flux and efficacy.
- Unified Glare Ratio (UGR) is calculated in accordance with CIE 117-1995. Reference conditions of 4Hx8Hx1H and reflectances of 70/50/20% have been applied using the procedure described in CIE 190-2010.
- Input power stated at 3500K. BioUp & Tunable White, stated with Advance FlexTune SR driver & Interact Pro scalable wireless sensor, data may vary with other drivers.
- BioUp delivers CRI 90+, 2700K-3000K, and CRI 80+, >3000K-5000K.

One Light Engine - AD (50% Down/%50 Up) Spacing Criteria: 1.24/1.29

One Light Engine - AE (40% Down/%60 Up) Spacing Criteria: 1.23/1.29

Candela plots shown are for 5000lm/4ft, CRI 90, 3500K configurations.

Footnotes from page 1 ordering guide

1. Nominal values within a range. Not all lumen packages are available with all configurations. Consult photometry data for CRI, color temp, lumens & distribution of chosen configuration.
 2. Not all wiring types are available with all configurations. Consult Ledalite for a complete list of available options.
 3. 347V Only available with Advance Xitanium 0-10V (1% Dim) driver. Not available with other Drivers, Battery Pack, GTD, Interact Pro options. Battery packs available for UNV 120-277V drivers, lumen package limits may apply, check with Ledalite.
 4. Interact Pro options require separate controls hardware by Signify.
 5. Tunable White and BioUp options are available with Interact Pro wireless or with 2ch 0-10V or DALI-2 (DT6 or DT8) wired drivers. Please enquire about options such as Lutron T Series or DMX control (extended lead times may apply).
 6. Auxiliary Wiring not available with Interact Pro luminaires. Aux sections are wired to one fixture end only.
 7. Sensors must be combined with a Sensor Ready driver option. Default sensor colour is white, fixtures with black finish have black sensors. (Consult factory for other combinations).
 8. Luminaires are pre-wired to both ends with quick wire connectors at one end for standard circuit & battery pack trigger wire (if applicable). Each circuit has its own neutral conductor. All circuits are clearly labelled at each end.
 9. Must order IRT9015 Interact commissioning remote with each system order.
 10. One Light Engine options only support single circuit. Two Light Engine options support single or dual circuits.
 11. Other options not shown here may also be possible via a custom request. Extended lead times and minimum order quantities may apply, please consult factory.
 12. UL924 listed sensor bypass relay is factory installed between driver & sensor. Must be ordered in same module as integral sensing option. Must be installed in conjunction with a UL1008 device.
- Note:** Due to continuing product improvements, Ledalite reserves the right to change the specifications without notice.
