

IVY LINEAR PROJECTOR

Linear LED Light Module

IVY Linear Projector in Black Anodized finish.

CONCEPT

Professional linear projector luminaire for indoor/outdoor modular light system allowing for maximum application flexibility.
Designed in collaboration with Stefano Boeri Interiors as product design consultant.

MECHANICAL CHARACTERISTICS

Dimensions	2.36"W x 34.84"L nominal luminaire profile range.
Materials	Extruded aluminum body protected with a layer of black anodization, minimum thickness of 15µ. Thermoplastic polymer side enclosure caps. Extra clear 4mm thick glass flat screen. Electronic components concealed in polymeric polycarbonate box sealed with a silicone rubber gasket.
Finish	● Black Anodized
Power Connection	Fixtures are manufactured complete with IN/OUT connections with micro male/female IP65 connectors. System interconnections require IVY jumper cable connections, see available options.
Mounting	Fast fixture installation using anodized aluminum clips into profile. Fixture positioning along profile with mechanical locking using hex 3mm key.
Weight	4.74lbs
Protection	IP65

CERTIFICATIONS

cULus Class 2 Listed.
 Tested in accordance with LM-79-08.
 Compliant with California energy regulations.
 RoHS3 EU 215/863

WARRANTY

5 year limited warranty.

SUSTAINABILITY

Luminaire designed for disposal/recycling at end-of-life. Replaceable LED light source and control gear by a Targetti technician.

ELECTRICAL CHARACTERISTICS

Power Supply	Remote power supply options available.
Wattage	22W
Voltage	24V DC
Control	0-10V wireless control from integral power feed/dimming control box for group fixture dimming control OR wireless bluetooth control through Casambi app interface for individual fixture dimming control. Refer to Targetti LMS (Light Management System) for detailed information. Product dimming control requires factory setup of fixture zone identification prior to shipment. Project layout drawings required.

SOURCE

OPTIC

Optical system is dependent on beam angle. FL, WG and WW versions comprised of a primary cylindrical linear lens in PMMA, high reflectance specular reflector and integral holographic diffusive filter. OPAL version comprised of MC-PET high reflectance white reflector and double holographic diffusive filter.

CONTROL SYSTEM

Controlling light has never been easier. Targetti [LMS \(Light Management System\)](#) with Control by Casambi was created to make it possible to control light via Bluetooth Low Energy without the use of any special cables, ensuring system operational readiness. This wireless technology is compatible with all modern smart devices: smartphones, tablets and even smartwatches. Targetti fixtures are equipped with a special interface that allows them to communicate with each other to create a remotely controllable "smart" network.

The advantages are boundless. The possibility for users to interact with lighting – varying intensity, tone and shape in complete freedom and autonomy according to their needs. The design approach known as Human Centric Lighting that places people at the center of lighting projects.

Flexible and easy to use, suitable for managing all types of simple to more complex systems, LMS is a future-oriented system that can be constantly updated because it can be used with a simple application that can be downloaded onto a mobile device to manage the entire system in wireless mode.
