## FEATURES

### Application

The LT Series provides bright, even LED exit illumination and emergency lighting, offering a flexible solution for emergency path of egress illumination. Four long life LEDs illuminate the exit sign, and two, semi-recessed "eyeball" shaped lamp-heads with halogen or LED based MR16 lamps provide emergency unit illumination. Remote capacity and damp location options are available.

### Construction

The precision-molded thermoplastic housing is impact and scratch resistant, corrosion proof and UV stabilized to resist discoloration. Available in white or black. Innovative snap-together design. Includes additional face-plate for single or double-face applications. Snap-in directional chevrons. Designed for ceiling or wall mounting; can be end-mounted with end-mount accessory kit. Red or green polystyrene .030" diffuser is frequency matched to the LEDs providing optimum exit sign illumination.

### Installation

Product mounts to 3½", 4" octagon or 4" square outlet boxes. Housing back-plate includes universal knock-out pattern for outlet box mounting. Keyholes provided for securing housing to wall surface. Pre-stripped pigtail leads provided.

### Illumination

Four long-life LEDs provide exit illumination. Exceeds the 2009 UL 924 requirements for brightness and uniformity. Unit illumination by halogen or optional high-performance LED based MR16 lamps.
