

# CTL2016

## Round Back Cylinder Track Fixture

### Specifications/Features

#### Fixture

Compact fixture utilizes MR16 lamps for exceptional color, efficiency, and beam control. Clean, contemporary styling with a Solid State 120V - 12V transformer concealed in the yoke.

The "Sure-Set" yoke design firmly holds any aiming position without unsightly knobs and provides 350° rotation.

A deep set die-cast black baffle provides full cut-off.

Integral ON/OFF switch and track polarity indicator are standard.

#### Lamp

(1) 50W MR16 Lamp (max) 12V.

Transformer is RFI shielded to FCC standards.

On fixtures designed for use with MR16 lamps, ConTech Lighting provides a clear, tempered safety glass. This safety glass should only be used with open MR16 lamps, and not used with MR16 lamps that contain an integral glass lens. This safety glass should be removed if use of MR16 with front glass is required.

#### Warranty

This fixture is covered by ConTech's full one (1) year replacement guarantee after date of purchase.

#### Listing

cCSAus Certified. Suitable for dry locations.

#### Fixture Compatibility

Standard ConTech track fixtures are cCSAus certified as-is for use with ConTech's many track systems, as well as with Juno®<sup>1</sup> Lighting track. By changing the prefix in the part number, ConTech can install inserts which make our fixtures compatible with other manufacturers. Replace "CTL" with "HTL" for Halo®<sup>2</sup> track, "LTL" for Lightolier®<sup>3</sup> track, and "PTL" for Capri®<sup>4</sup> track. For more information, please consult our factory.

### Ordering Information

Example Order:  -

Track System

**CTL** - ConTech
