

Odyssey Line Voltage Flexible Track System

120V Fixtures

Specifications/Features

Odyssey line voltage flexible track system offers unique visual interest over standard ceiling track. Fixtures are crafted from high quality materials to provide years of appealing illumination with an adapter integrated into each one to ensure a solid electrical connection and simplified installation on the track. Fixtures are available in a silver or antique bronze finish to create a modern style

in many different environments. No transformer is required for the line voltage fixture offering. All fixtures carry ConTech's one year full replacement guarantee after installation. See specific fixtures for lamp type and maximum wattage, lamps are sold separately. All fixtures are cCSAus Certified for dry locations.
