

E1-Indirect (E1-I) Linear

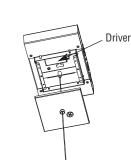

E1-I Linear delivers exceptional performance in a low-profile linear form. It uses mid-power LEDs and a high performance optical design to spread light evenly, yielding a comfortable and energy efficient design. E1-I Linear is dimmable, easily serviceable and available in 2', 3', 4', and 8'* independent lengths and can be formed into runs. This product is enrolled in the International Living Future Institute (ILFI) Declare 2.0 Program and is third-party verified with options achieving Red List Approved and Declared status.

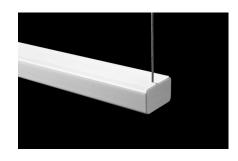

FINELITE

DIMENSIONS/LIGHT ENGINE: E1-I Linear uses mid-power LEDs evenly

distributed and paired with a precise diffuser to eliminate pixilation from viewable angles.

EASILY ACCESSIBLE DRIVERS: The drivers are easily accessible from below the ceiling without removing the luminaire.

TOP GLOW™ DIFFUSER: The diffuser provides a soft uniform glow above the luminaire for a clean architectural element.

| 4000K | 0.789 | | | |

Apply a lumen adjustment factor to calculate lumens for the desired CCT and CRI.

SAMPLE LUMEN ADJUSTMENT CALCULATION

High Output (H), 4000K, 90 CRI

Lumen Adjustment Factor = 0.789

Total Light Output = 1751 lm x 0.789 = 1382 lm

Total Light Output per Foot = 438 lm/ft x 0.789 = 346 lm/ft

watts/foot = 3.8 W/ft

$$Efficacy = \frac{346 \frac{lm}{ft}}{3.8 \frac{W}{ft}} = 91 \text{ Im/W}$$

E1-Indirect (E1-I) Linear

EASY INSTALLATION:

FINELITE

Specially designed mounting hardware and a unique canopy design makes E1-I Linear easy to install and maintain.

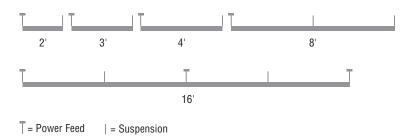

MOUNTING

Standard off grid mounting.

LENGTHS

service.

Standard 2', 3', and 4' section lengths can be combined to make longer runs. 8' length requires three suspension points. Runs require a suspension point every 4' and a feed every 8'. Contact factory for independent 2' sections.

SPECIFICATIONS -

CONSTRUCTION: Precision cut 6061-T6 extruded aluminum body with steel endcaps. Top Glow™ diffuser snaps into place and is easily removed for

UPLIGHT DIFFUSER: The Top Glow™ diffuser is frost white standard, 89% transmissive, 99% diffusion. Coupled with light engine design, the diffuser spreads the light evenly for enhanced ceiling uniformity.

LIGHT OUTPUT: Four lumen packages available. Standard (S), Boosted Standard (B), High (H), and Very High (V). A separate chart summarizes lumen distribution and wattage. Light engines are replaceable.

LIGHT ENGINE: The replaceable light engines are made up of high performance mid-power LEDs and designed to distribute heat properly to maximize the life of the LEDs and the driver.

LUMEN MAINTENANCE: 90% of initial light output (L90) at 100,000+ hours; 70% of initial light output (L70) at 200,000+ hours.

DRIVER: Replaceable 120V/277V Constant Current Reduction dimming driver standard. Can be wired dimming or non-dimming. 0-10V dimming controls with a range of 10%- 100%. Dimming to 1% available; consult factory. Driver is fully accessible from below the ceiling. Power Factor: 0.9. Total Harmonic Distortion (THD) <20%. Step-dimming driver (limited programable outputs. Contact Factory). Expected driver lifetime: 100,000 hours.

ELECTRICAL: 120V or 277V prewired. Emergency to generator/ inverter wiring, internal generator transfer switch, nightlight wiring. Please note: Battery backup not available.

MOUNTING: Standard E1-I Linear mounting is off-grid. Mounting hardware supplied by Finelite includes 1/4 -20 hardware. Retention arm (bar hanger) for connection to ceiling grid or joists is by others. LED drivers are 100% accessible from below ceiling by simply lowering canopy.

FINISH: Finelite Signal White powder coat finish standard. Optional adders: 185 colors available using Tiger Drylac's RAL color chart.

SUPPORT CABLE/FEED: (FA) 50" fully adjustable aircraft cable standard with a safety stop. Micro 2-wire feed power cable. Contact factory for additional lengths up to 150". Power feed required for every 8'.

Due to continuing product improvements, Finelite reserves the right to change specifications without notice. Please visit www.finelite.com for the most current data.

LENGTHS: Standard 2', 3', and 4' section lengths can be combined to make longer runs. 8' length requires three suspension points. Runs require a suspension point every 4'. Contact factory for independent 2' sections.

4

WEIGHT: 0.4 lbs per foot. 4' E1-I Linear weighs 1.6 lbs.

LABELS: Luminaire and electrical components are ETL-listed conforming to UL 1598 in the U.S.A. and CAN/CSA C22.2 No. 250.0 in Canada. In accordance with NEC Code 410.73 (G), this luminaire contains an internal driver disconnect. Damp Location. Finelite products use electronic components that are RoHS compliant, and the mechanical components of the luminaire have been verified to not knowingly contain any restricted substances listed per RoHS Directive 2002/95/EC. Finelite makes the specification process easy when putting healthier products on your projects. Simply add - RLD (Declared Label) to your part number.

WAR RANTYE1-I Linear comes standard with a 10year performance-based warranty on all components.
