

## BROOKHAVEN Round Tapered/Non-Tapered Aluminum Post

Job Name:		Client Name:				
Job Location - City:	State:	Created By:	Date:			
Product: 4Y01ASR	Quote:	Customer Approval:	Date:			

#### **SPECIFICATIONS**

**Post** - The post shaft is either spun or extruded from 6000 series alloy aluminum.

**Post Top** - A post top plate and tenon can be provided for top mount luminaire and/or bracket. A removable finial is available for posts receiving drilling patterns for side-mount luminaire arm assemblies.

**Structural Base** - The structural base is cast from 356 alloy aluminum and provided with two circumferential access doors near the bottom of the base. A grounding provision is provided. The post shaft is inserted and welded into the structural base casting. The completed assembly is heat-treated to a T6 temper after the structural welding is completed.

**Anchor Bolts** - Anchor bolts conform to ASTM F1554 Grade 55 and are provided with two hex nuts and two flat washers. Bolts have an "L" bend on one end and are galvanized a minimum of 12" on the threaded end.

**Finish** - The standard finish for the post assembly and components is polyester powder applied coating in accordance with Valmont's Specifications. Additional finish options available upon request.

- 1. EPA values are calculated using fastest mile winds.
- 2. Maximum EPA (Effective Projected Area) and weight values are based on top mounted luminaires and/or brackets having a centroid 2'-6" above and 1'-6" eccentric to the post top at Nominal Mounting Height. Variations from sizes above are available upon inquiry at the factory. Satisfactory performance of posts is dependent upon the post being properly attached to a supporting foundation of adequate design.
- 3. Structure Weight is a nominal value which includes the post shaft and structural base.
