

# EVE Series

## LED Exit Sign

### FEATURES

#### Application

The EVE series is a compact architectural LED exit sign designed for fast installation and reliable service. The EVE Series has a flame-rated, UV stable thermoplastic housing with a lightly textured white or black finish. Available in AC only or emergency operation which includes a nickel metal hydride(NiMH) battery and provides a full 90 minutes of emergency exit illumination in the event of power failure. Includes a constant current charger. The EVE accepts 120/277VAC input at 60Hz and optional 220-240VAC input at 50 or 60 Hz with self-diagnostics option. Available with special worded options.

#### Construction

The EVE series housing and canopy are made from durable injection molded ABS thermoplastic

#### Installation

EVE can be wall mounted by use of back-plate with molded-in template, ceiling or end mounted with the use of supplied canopy to standard 3-1/2" or 4" square or octagonal electrical boxes. Pre-stripped AC input leads provided.

#### Illumination

The EVE series provides bright and uniform exit panel illumination by using energy saving, long-life red or green LEDs with a 10 year lifecycle. The panel face exceeds UL924 requirements for brightness and uniformity.

#### Compliances

Listed to UL924 Standard  
NFPA 101  
NFPA 70  
UL Damp Location Listed  
CEC T20 Compliant

#### Warranty

EVE Full 5 year warranty  
Battery, 3 years full, 7 years pro-rata

<sup>1</sup> For use with emergency models only

<sup>2</sup> For use with AC models only

<sup>3</sup> Operates with 24 volt AC or DC fire alarm panels

<sup>4</sup> For emergency illumination of sign from remote 6-24 VDC power source

<sup>5</sup> DC option may not be specified with 2C or FAP options

<sup>6</sup> AF,-FM and FAP options may not be specified together

<sup>7</sup> For use with Spectron equipped models only

<sup>8</sup> SW option limited to selections on pg.2

<sup>9</sup> Special worded sign ships as a universal single or double face

**SPECIFICATIONS**

**Electronics**

- Upon failure of the normal utility power, a solid-state transfer switch automatically activates the exit LEDs. Upon resumption of the normal utility power, the battery is disconnected from the load and recharged through a constant current charger. The battery is a maintenance-free Nickel Metal Hydride(NiMH) type. The EVE series accepts 120/ 277VAC at 60 Hz, or an optional 220-240VAC input (-24K option)at 50 or 60 Hz. A low voltage battery disconnect(LVD) feature protects the battery from damage during prolonged power failures. Manual testing is available at any time using the push-to-test button. Rated LED lifecycle-greater than 100,000hrs. or 10 years.

**Standard Features Include:**

- External push-to-test switch and AC-on indicator
- Battery re-charge within 24 hours
- AC Lock-out circuit
- Low voltage battery disconnect

**Optional Spectron Feature:**

- Self-diagnostics monitors LED status, LED load transfer circuit, battery capacity and charger function and displays any fault detection by means of a flashing code
- Self-Test feature automatically runs a 1 minute test once a month and an alternating 30 or 60 minute test once every 6 months. Multi-color LED indicator provides visible fault detection and charging status User initiated 1 or 90-minute system test feature
- 15 minute re-transfer delay
- Automatic unit transfer in brown-out conditions(below 80% of nominal AC input voltage)

**Operating Temperature Range:**

0° to 40°C

**Weight:** 2.5 lbs
