LTRX24

2' × 4' Ambient/Exam Enclosed Luminaire

Catalog Number	
Comments	Type

LTRX is designed for medical examination rooms and provides a normal, comfortable general ambient light level as standard. When switched to exam mode, LTRX doubles the light level on the examination table. A curved, easily cleaned surface, LTRX ships standard with antimicrobial paint which resists bacterial growth on exposed painted surfaces.

createchange   **LED**   **DLC QPL LISTED**

FEATURES

- Designed specifically to provide comfortable ambient lighting or high lumen levels for examinations on demand
- Step dimming LED drivers provide ability to go from ambient to exam light levels
- Standard high performance matte white antimicrobial paint resists bacterial growth on exposed painted surfaces
- 90 CRI standard with a high R9 for excellent color rendering
- Enclosed lens protects against intrusion of contaminants
- High efficiency lens features linear prism acrylic for visual comfort and high performance without LED pixelation
- Long life, 50,000 hour LEDs at L80 reduce life cycle maintenance costs
- Lens gasket option and wet location listing available
- Low W/ft² ratio typically meets most restrictive lighting power density codes
- Electrical components accessible from below the ceiling with modular replaceability
- QR code for future traceability
- DLC® (DesignLights Consortium) Qualified - see www.designlights.org

SPECIFICATIONS

Construction: Luminaire housing and end caps are die formed code gauge cold rolled steel. Reflector is stiffened with linear forms, profiled to a precision curve. High transmission extruded acrylic enclosed lens features linear prisms and custom frost for high efficacy without pixelation.

Shielding: Thermoplastic light seals snap into the housing at both ends of the lens to prevent light leaks. Lens hinges down for easy access to LED module and electrical components. Optional gasketing available to surround the lamp cavity (standard when Wet Label option is ordered).

Finish: Supplied standard with antimicrobial paint; resists bacterial growth on exposed painted surfaces. Paint is custom formulated high reflectivity matte white for uniform indirect illumination and attractive, professional appearance.

Installation/Mounting: For recessed products (G) an access plate is furnished with each luminaire for fast wiring access without the necessity to open the fixture or wireway. Surface mount (SM) products are provided with a surface mounting collar.

Ceiling Compatibility: Luminaire fits recessed exposed Grid ceilings (G); four integral NEC compliant T-bar clips are standard. Can be placed in Slot Grid (SG) style ceiling with regress ⅜" above ceiling plane. A Flange Kit (FK) accessory is available for recessed hard ceiling applications. Surface Mount (SM) option allows placement below ceiling plane.

Certification: All luminaires are built to UL1598 and 2108 standards, and bear appropriate CSA labels. Damp location is standard. IC label standard. Note that IC label is void if product is installed on site with through wiring. Wet location listing available on all configurations. Emergency-equipped fixtures labeled UL 924 and Dry Location unless specified. Adheres to LM79, LM80, and TM21 industry standards. DLC® (DesignLights Consortium) Qualified. Please refer to the DLC website for specific product qualifications at www.designlights.org.

Warranty: Five year warranty (Terms and Conditions apply).
