Housing and Optic Assembly:

Specifications

B Extruded acrvlic

housina

A Serviceable extruded

aluminum heat sink/

beam shaping lens

Extruded aluminum heat sink/optic housing. Exterior heat sink anodized for maximum emissivity. Stainless steel end plates. Extruded acrylic refractive semi-diffuse asymmetric beam shaping lens. Extruded aluminum driver housing and removable cover.

Finish:

Optic assembly - bright anodized aluminum. Side arms and driver compartment - mill finish aluminum or painted semigloss white for natatorium option. Painted surfaces receive a 6-stage pretreatment process prior to electrostatically applied baked powder enamel. All hardware - stainless steel.

Mounting:

Lay-in installation, side arms with mounting tabs can be base or wall mounted (fasteners by others). Luminaires can be mounted individually or joined together to form a continuous row. Optical assembly aiming is adjustable and is fixed in position by rotation locking screws at each side arm. When mounted in a continuous row, assemblies lock together allowing all in the row to be aimed together.

Fixture weight: 1.7 lb/ft (2.5 kg/m). 4/21

Electrical:

by others)

Use 90°C wire for supply connections. Integral electronic Class II drivers. For complete driver specifications, see website, reference document MA-1303. Driver/wireway compartment includes one conduit entry at each end. Channel cover is removable for access to driver and wiring. Luminaires may be butted end-to-end (connectors by others) for through wiring. Optional #12 AWG prewired modular through wiring with quick connectors. Optional, compatible dimming controls (by others). See website for dimming compatibility and specifications.

Standard:

UL listed or CSA certified for damp locations. For natatorium use, specify **OP** or **PK** option. 5 year warranty, maximum ambient temperature 45°C (113°F).

Style S315

Features

- Tunable White Now Available!
- Asymmetric distribution uniform surface illumination
- Wide lateral distribution no socket shadows
- Fully adjustable and lockable optic assembly
- Integral driver with optional pre-wired harness
- Low profile allows smaller cove height

Performance

Precisely extruded acrylic lens produces an asymmetric distribution ideal for illuminating ceilings evenly.

Adjustable Mounting Feet

The optical assembly is adjustable and lockable, in addition, the S315 is provided with mounting feet that can raise the optical assembly to achieve lower aiming angles.

Standard (low) position allows peak candlepower to be aimed as low as

15° above horizontal.

Middle position allows peak candlepower to be aimed as low as 10° above horizontal.

High position allows peak candlepower to be aimed as low as 5° above horizontal.
