

SLITE-ENCAPSULATED (03) Linear Fixtures - MICRO 5 SERIES

The new SLITE-ENCAPSULATED (03) Micro 5 Series is 48% smaller than MDIN, making it Q-Tran's smallest flush installation extrusion. SLITE is designed to be placed within drywall applications. Once installed, its wings are covered with tape and compound to create a seamless look. An encapsulated lens complements SLITE's modern and discreet design to provide optimally delivered lumens, making it ideal for indoor and outdoor applications that call for a seamless look. SLITE is offered in a satin finish with clear or translucent encapsulation and available in custom lengths up to 98.43."
