AT3X01B

3 1/2" Rear Load Directional Baffle Trim
For MR16 Lamps

Features

Trim
Constructed of precision spun 0.040" steel.

Reflector
Stepped baffle with recessed lamp position to reduce aperture glare and improve visual comfort. Baffle adjustable to 30° for precise light positioning.

Housings
Housing required (sold separately). Trim is compatible with the following housings:

- 3 1/2" Halogen housings.
- 3 1/2" Super shallow low voltage halogen housings.

Mounting
Three spring clips to provide secured positioning in housing can.

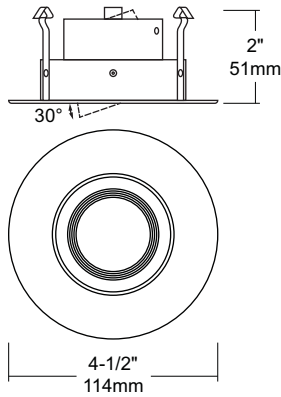

Lamp Wattage / Type

- MR16, 12V, 50W max.
- MR16 E26, 120V, 50W max.
- MR16 GU10, 120V, 50W max.

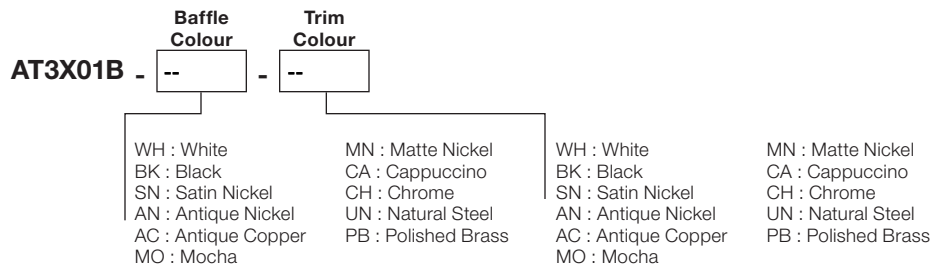

Description

The AT3X01B is a round directional stepped baffle, with its adjustable baffle it allows for 30° precise light positioning. It is ideal for use in task, accent and general lighting applications.

Notes: Accessories should be ordered separately. For additional options please consult your A-Line Lighting representative. Due to our continued efforts to improve our products, product specifications are subject to change without notice.
