

Symphony Low Voltage MiniTrack

Low Voltage Fixtures

Specifications/Features

The Symphony low voltage fixture collection is crafted from high quality materials. The small scale of the Symphony track system allows layouts to be hidden away or seen with stylish fixture designs that enhance the space. Fixtures use Halogen lamps, are rated for 12V or 24V operation, are cCSAus

certified for dry locations and carry ConTech's one year full replacement warranty (from date of purchase). See specific fixtures for lamp type, voltage restrictions and maximum wattage. Lamps sold separately. Fixtures are available in Black (B), White (P) and Silver (S).
