DESCRIPTION

Motorized track mounted spot of cast aluminum. Motolux Spots are available in 3 different light head diameters 2.5", 4" and 5". Two motors drive the movements of the fixture, tilting up to 90° in each direction and rotating 350°. Moto Spot allows the user to shape the light beam from narrow to wide. The movements, beam shaping, dimming and color tuning are all controlled by CASAMBI®. LED technologies include static white, full spectrum tunable white, RGBW (130 only) and Lumenetix. Not all options are offered on every size head. Please see specs for exceptions. Optional glare reducing accessories include linear spread lens, honeycomb louver, visor and snoot. Excellent for retail, museum, gallery, hospitality, and small stage theatrical.
