

Guardian¹³ AL

ALUMINUM STEP NOSE WITH EMBEDDED LIGHTING

NORTH AMERICAN SPECIFICATION

PROJECT: _____

TYPE: _____

APPLICATION

The Guardian AL Step Nose is ideal for any type of venue from movie theatres to auditoriums and stadiums. Provides a continuous line of light on the tread of each step and a non-slip vinyl tread insert for ultimate safety and aesthetics in low light environments. Optional riser lighting provides scalloped light effect on the riser for additional safety. Features two circuit design so tread and riser light can be dimmed separately as needed. Commercial grade aluminum body is cut to length at factory for ease of installation and the LEDs can be field serviced if needed without removing entire step nose. End covers can be adjusted and pulled out after installation for fitting and maintenance. Riser light cap shields can be shifted left or right after installation for better alignment to match the scalloped steps above and below in the run.

CONSTRUCTION

- Durable extruded aluminum body, black.
- Matching black die cast aluminum end covers.
- Non-slip vinyl insert in contrasting colors of Black and Gray.
- Mechanical (screw) installation plus adhesive for extra security and vibration dampening properties.
- Flooring Slip Resistance Test Certified - AS HB198:2014 (AS/NZS 4586)

OPTICS / LENS / DIFFUSER

- Continuous side glow fiber optic rod on tread provided even, neon type, illumination across step.
- Riser LEDs spaced 4in on center for scallop effect.
- Seated tread lens resists spills and moisture ingress.

PERFORMANCE

- Micro-maintainable LEDs are field replaceable without having to remove step nose fixture.
- Power consumption of 1.0W/step tread LED and less than 1.0W/ft for riser LEDs.
- 2 circuit dimmable design allows for separate control of tread light output and riser light output.
- 12VDC remote power supply.
- Optional 12VAC remote power supply enabling longer run lengths.

LIGHT CHARACTERISTICS

- Tread LED and riser LED colors available in Red, Green, Blue, Amber, Yellow or White.

- 1) For custom configurations, consult factory.
- 2) Three Riser LEDs per 12 in module. Please refer to table on Page 3 for number of allowable modules per build length and their corresponding unlit space on ends.
- 3) Total order length includes end covers. For lengths longer than listed, consult factory.
Guardian AI provides up to 0.4 in outward end cover extension on both ends for field adjustability.
- 4) If Riser LED Color selection is No LED (NN), leave Riser LED Spacing selection blank.

	SSD-120	120V Branch Circuit
	SSD-277	277V Branch Circuit

12VDC DRIVER REMOTE DISTANCE

12V Driver	Wire Gauge	Maximum Lead Length
	18 AWG	10 ft (3m)
	16 AWG	15 ft (4.5m)
	14 AWG*	25 ft (7.5m)
	12 AWG*	40 ft (12m)

* Terminal blocks on the drivers accept only solid 18AWG or 16AWG wire. To use wire gauges larger than 16AWG connect up to 3 ft of 18AWG or 16AWG, then connect 14AWG or 12AWG with UL approved wire nuts up to the maximum lead length in the above tables.

NOTE: 12VAC Drivers have no maximum lead length.

APPLICATION

Set&Step™ is a one component, fast grab adhesive designed to secure Tempo floor safety products. The multipurpose elastomeric sealant has high green strength for quick adhesion. When fully cured, this unique VOC compliant formula offers UV stability and a steadfast bond to concrete, wood, metal, painted surfaces, and many other common substrates.

FEATURES & BENEFITS

- Alternative to mechanical fastening
- Black material color to match Tempo products
- High green strength/elastic with fast cure
- Flexible & durable, will not shrink or crack
- Can be sanded & painted
- Adhesion to Kynar®
- Odorless & non-corrosive
- VOC compliant
- Contains no solvents or Isocyanates
- Color stability and UV resistant (ASTM G26)
- Non-yellowing/staining
- Resistant to most chemicals

PRODUCT USAGE

- LPS Step Nose (24' per sausage pack)
- LPS Raceway (50' per sausage pack)
- Guardian Step Nose (16' per sausage pack)
- Guardian Aisle CC (60' per sausage pack)
- Guardian Aisle CF (50' per sausage pack)
