XT40 42.5W
4000 Lumen LED

The XT40 is designed around the Xicato™ LED remote phosphor module. This module produces an even field of illumination for the most demanding applications. The XT40 is ideal for museum and retail lighting where a low wattage, high output LED fixture would be required. Xicato™ LEDs exceed ANSI specifications by maintaining tight color consistency over the life of the LED module.

The XT40 is available in standard black, white, or silver finishes. Custom colors are available upon request.
