#### **Delivered Lumens\***

#### **Electrical System**

- 30W, 50W, 70W
- Power Input: Universal (120-277V)
- Operating Temperature: -13°F~104°F
- Power Factor Greater than 0.9

#### LED Technology

- ColorFlip<sup>™</sup> (Tuning White: 2700K ←→ 6500K)
- 85+ CRI
- Beam Angle:
- Down: 40°, 60°, WD
- Up: 40°, 60°, WD
- -UGR ≤19
- Rated Life > 60,000 Hours (L70)

#### **Advanced Dimming**

(Proprietary VX Driver is incorporated to all dimming options for video flicker-free lighting)

#### With Signal Wire

- -Superior 0-10V: dims to 1%
- DMX: high resolution dims to 0.1% (RJ45 only) (Supports ANSI E1.20 RDM protocol)

Note: ONLY Single Dimming (Controls Up/Down Together)

#### Housing

- Diameter: 6.37" (162mm)
- Height: 20" (508.5mm)
- Material: Aluminum
- -Weight: 15.2 lbs
- Canopy Height: 2.95"

#### Mounting

- -Power Line Mount 2ft, 4ft, 6ft, 8ft, 10ft with High Lumen Power Suspension (Canopy Height: 2.95")
- -Power Line Mount 2ft, 4ft, 6ft, 8ft, 10ft with High Lumen Power Suspension and Remote Power (Canopy Height: 0.84")

#### Warranty

- 5 year limited warranty

#### Listing

- ETL Listed

#### **DMX Requirements\***

Each DUO6 DMX unit has TWO CHANNELS per fixture (1 to control intensity, 1 to control color). Fixture will be controlled by DMX number controlling intensity.

We do not recommend more than 32 fixtures per DMX daisy chain.

When placing order, please indicate DMX address (refer to DMX Address example below).

DMX address will be listed on the back of each fixture.

	DMX Address					
Fixture	Intensity Control (ex. X)	Color Control (ex. X+1)				
#1	1	2				
#2	3	4				
#3	5	6				

The LED fixture provide RJ45 Socket to connect. (DMX cable NOT included.) The final fixture should be terminated by the use of DMX Terminator (by others).

#### **Compatible DMX Cabling List**

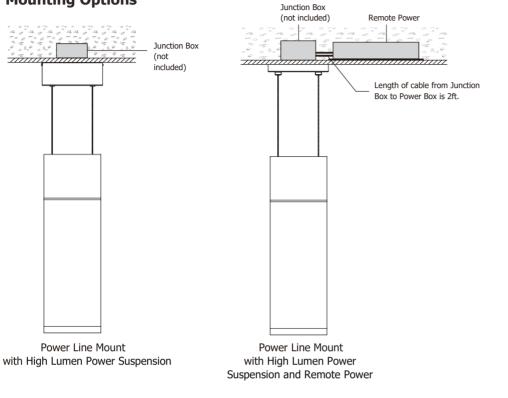

DMX uses a cable consisting of two twisted pairs plus a shield to carry data. The cable must be specifically impedance matched for the digital DMX signal, meaning that microphone cable or other non-rated cable **must not be used to carry DMX**. Network cable (Cat5, 5e or 6 cable) may be used to carry DMX in an installation; however special consideration must be given to shielding and termination. Under no circumstances should solid core cable like Cat5 be terminated into a screw down connector.

Meteor recommends the use of Belden 9729 for DMX installation. Belden 9729 is a two pair cable, which allows for a spare pair for 'out and back' type terminations if needed. Below is a list of other compatible Belden cables.
