DURATAPE™ TUNABLE CCT

IP20 INDOOR

KEY FEATURES

- According to Human Centric Lighting principles, the Kelvin temperature of light has a profound influence on people's emotional state. DURATAPE TUNABLE CCT is fundamental for dynamic white light management to improve the overall environment and the wellbeing of people. Dynamic white light is essential in environments where people remain for a long period of time, such as offices and schools. It is equally useful to create different atmospheres within the same environment such as restaurants and hospitality environments.
- DURATAPE TUNABLE CCT allows for full dynamic control of white light blends ranging from cool to warm kelvin tones, with dimming control independent of color. DURATAPE TUNABLE CCT offers two white color temperature ranges from 1800K to 3500K or from 2700K to 6500K.
- DURATAPE TUNABLE CCT offers two white colour temperature variations from 1800K to 3500K or from 2700K to 6500K.
- Features 3-circuit, double layer of copper sided substrate, for optimum heat dissipation, minimizing voltage drop while increasing run lengths per power feed, standardizing electrical flow over entire length of the strip for maximum product reliability.
- Features double sided solder points for maximum conductivity and durability.
- Sold per foot and manufacturer pre-assembled to specific lengths with various connector options for project requirements and efficient power configurations.
- Max continuous length: up to 16' per run
- Multiple control options available.
